

Supporting Young People with Medical Conditions Policy

Including the administration of medicines

15-17 Irlam Road, Bootle, Liverpool, L20 4AE · Alternative Provision for Ages 5–25

ADOPTED POLICY

This policy has been formally adopted by L-Fit Pathways' co-directors and is in effect from the date shown below. Any section still shown in [square brackets and amber text] is organisation-specific detail that remains to be confirmed and inserted - it does not affect the rest of the policy's validity but should be completed as soon as possible.

Version: 1.0 (Adopted)

Date Adopted: 16 September 2026

Next Review Due: 16 September 2027 (or sooner following any legislative change or relevant incident)

1. Statement of Intent

L-Fit Pathways is committed to ensuring young people with medical conditions receive the support they need to take part safely and fully in our provision, in line with DfE statutory guidance on supporting pupils with medical conditions.

2. Legal & Statutory Framework

- Statutory guidance: Supporting pupils at school with medical conditions (DfE)
- Equality Act 2010
- Health and Safety at Work etc. Act 1974

3. Individual Healthcare Information

Medical needs, allergies and any required medication are recorded at referral stage, using information provided by the parent/carer and, where relevant, the referring school or an Individual Healthcare Plan. This information is shared with relevant staff on a need-to-know basis, in line with our Data Protection Policy.

4. Administration of Medicines

- Medicines are only administered with prior written parental/carer consent, specifying the medicine, dose and timing
- Wherever possible, young people who are able to self-administer (e.g. an inhaler or auto-injector) are supported to do so, with staff aware of the location of the medication
- A record is kept of any medicine administered, including time, dose and member of staff involved

[Confirm named staff trained in the administration of any specific emergency medication currently in use, e.g. adrenaline auto-injectors or emergency inhalers]

5. Emergency Procedures

Staff are briefed on any young person's emergency medical needs (e.g. severe allergy, epilepsy, asthma) before that young person's first session. In a medical emergency, staff call 999 immediately, then contact the parent/carer and a Designated Safeguarding Lead.

6. Activity-Specific Considerations

Medical information is factored into planning for physically active provision (Boxing Fitness, Forest School) and Animal Assisted Learning (allergy risk), in line with our Health & Safety Policy and Risk Assessment.

7. Roles & Responsibilities

The Co-Directors hold overall responsibility for ensuring medical information is collected, shared appropriately and acted on.

8. Monitoring & Review

This policy is reviewed annually, or sooner following a medical incident.

Policy adopted on: 16 September 2026 — Next review due: 16 September 2027
